

Wouldn't it be beneficial to know your data, such as online billing, remote access, healthcare delivery, and case management, are constantly being monitored for compliance?

Introducing Log Defender from Affinity IT Group.

With Affinity IT Group's Log Defender compliance monitoring and reporting service, you'll have non-stop monitoring and maintenance – 24 hours a day, 7 days a week, 365 days a year (or 366 days for leap years!)

Log Defender's main job is to constantly...

- Detect Threats
- Analyze Threats
- Respond to Threats

...and it **NEVER** stops. It won't call in sick or get up to use the restroom – making it the most reliable compliance monitoring and reporting service on the market.

Log Defender keeps you in compliance with

- PCI DSS
- SOX
- HIPAA
- COBIT
- Omnibus
- HITECH

And integrates securely with any and all employee-owned devices for in-depth security management regardless of where you are.

For more information on how Log Defender can keep your dental practice secure, give Affinity IT Group a call at 800-627-2214.

It's not just circuits & switches - IT's personal.
