

With StratusVault from Affinity IT Group – Backup is as easy as 3 - 2 - 1!

If you don't already have a backup and disaster recovery plan in place, you're hurting your business. It's quickly becoming standard practice to have your data backed up and stored off site to prepare yourself for a disaster.

Luckily, StratusVault from Affinity IT Group makes backup and recovery a snap!

See, we follow the 3 - 2 - 1 rule of data backup -

3 copies of your data:

- 2 copies stored on different media types
- 1 copy stored off site at one of our secure facilities

StratusVault from Affinity IT Group – Saving You from the Storm.

For more information on how StratusVault can keep your dental practice safe from the storm, give Affinity IT Group a call at **800-627-2214**.

That's right. We don't store your important files just anywhere. All of your data is housed in one of our secure facilities that meet industry regulations and government compliances.

StratusVault is constantly monitored as well, so you'll leave the office knowing that your data will be backed up every night. Affinity IT Group tests, validates, and manages StratusVault for you as well, and can tailor your backup to meet your needs – whatever they may be.

It's not just circuits & switches - IT's personal.
