

Let Affinity IT Group Take Your Hand.

Created to enrich the lives of those within our community, Affinity IT Group blends business expertise with premium IT Support to help pave the way to success for your business. We take care of your technology right from the start, giving you more time to enjoy your life and all it has to offer.

As a trusted member of your family, the team at Affinity IT Group takes your hand in breaking technology barriers, supporting you every step of the way as you face the unknown.

*Do you want to experience...
financial freedom?*

More time spent with loved ones?

*And the success that comes with
overcoming technological barriers?*

**Join the Affinity IT Group
family to get started.
To us, you're more than
your technology's circuits
and switches. You're
family.**

Managed IT Services

By letting us manage your network infrastructure and provide proactive support 24/7/365, you'll have the technology you need to reach your goals.

Network Security

Don't let obstacles such as viruses and threats obscure your path and sabotage your data. We'll make sure you're protected and moving forward.

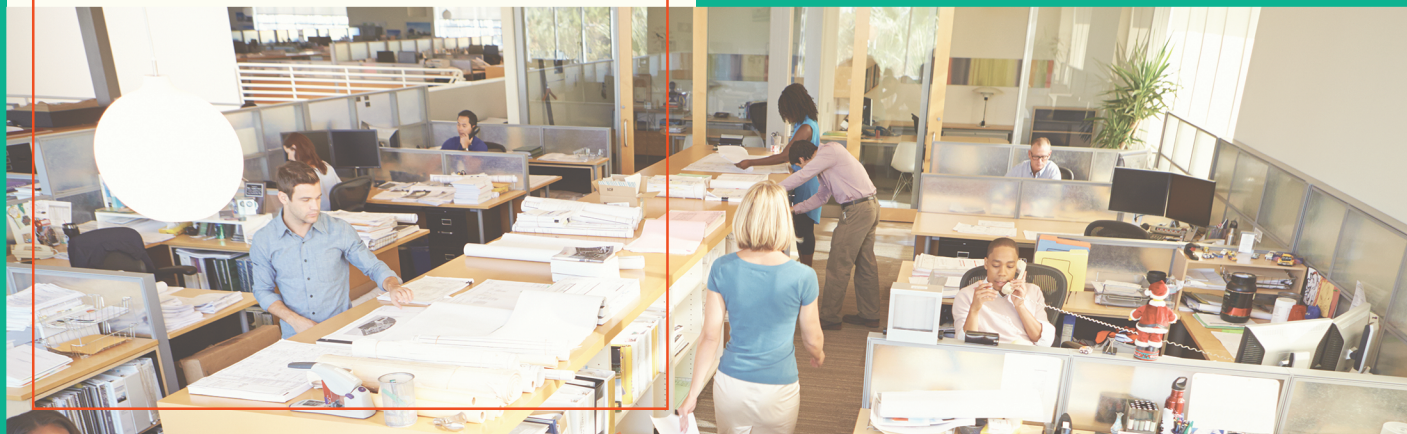

StratusVault Backup

We'll protect you from the storm by testing, validating, and managing your backup and recovery plan. We'll be there when you need us most.

Professional Services

Give your IT the freedom it needs to determine growth by automating workflows and working the way you want it to.

Affinity IT Group provides your company with the friendly, dedicated IT Support needed to reach its fullest potential and enrich your life.

Cloud Computing

Reduce your costs by cleaning out the clutter of your physical hardware to provide a faster, more efficient company.

On-Premise VoIP

Communicate in the best possible way and be clearly heard clearer to improve customer relations and close more business.

Surveillance

Remote retrieval and active alert systems make it easy to keep your sights focused on your goals instead of on your security.

Relocation Services

Take care of your data during your move. We'll make sure it's handled with gentle precision so you don't end up with a damaged network.
